

NAPHCN A - naphazoline hydrochloride and pheniramine maleate solution/drops

Alcon Laboratories, Inc.

Drug Facts

<i>Active ingredients</i>	<i>Purpose</i>
Naphazoline hydrochloride 0.025%	Redness reliever
Pheniramine maleate 0.3%	Antihistamine

Uses

for the temporary relief of redness and itching of the eye(s) due to:

- ragweed
- pollen
- grass
- animal dander and hair

Warnings

For external use only

Do not use

- if you are sensitive to any ingredient in this product
- if this solution changes color or becomes cloudy

Ask a doctor before use if you have

- narrow angle glaucoma
- heart disease
- high blood pressure
- trouble urinating

When using this product

- pupils may become enlarged temporarily causing light sensitivity
- overuse may cause more eye redness
- remove contact lenses before using
- to avoid contamination, do not touch tip of container to any surface
- replace cap after each use

Stop use and ask a doctor if

- you feel eye pain
- changes in vision occur
- redness or irritation of the eye(s) gets worse or lasts more than 72 hours

Keep out of the reach of children.

If swallowed, get medical help or contact a Poison Control Center right away. Accidental swallowing by infants and children may lead to coma and marked reduction in body temperature.

Directions

- adults and children 6 years and over: put 1 or 2 drops in the affected eye(s) up to 4 times daily
- children under 6 years: ask a doctor

Other information

- store at 20°-25°C (68°-77°F)
- protect from light

Inactive ingredients

benzalkonium chloride, boric acid, edetate disodium, purified water, sodium borate, sodium chloride, sodium hydroxide and/or hydrochloric acid
